

## **2007 Kokua Awardee: Dana "Moon" Kahele**

Whenever someone needs the gift of music, Moon is the one they call.

He has gladly shared the history and sweet sounds of slack key guitar through presentations to groups ranging from employees at cultural awareness days to classrooms of students.

He has been called to the bedsides of the sick in homes and hospices to soothe with the sounds of home.

His music has been there when lives are celebrated: Memorials, anniversaries, the birth of babies.

Whenever he is able, he is there.

These are not gigs, these are gifts of aloha from Moon's heart as expressed through his music. For this we thank him.
